ABOUT ME

Passionate about contributing my computer science skills to drive a company's mission. I have a good understanding of programming, software development, system architecture, and electrical engineering. I thrive on uncovering how things work. Whether it's technology, machinery, or concepts, I have an insatiable curiosity for understanding the inner workings.

WORK EXPERIENCE

Video Game Tester - UBISOFT

AUG 2021 - AUG 2022

My role as a video game tester required strong attention to detail, great communication skills, and excellent problem-solving skills.

- Tested video games for bugs and glitches
- Reported found issues to game developers
- Created detailed reports of bugs and issues
- Helped developers recreate and fix issues
- Used JIRA to communicate and report bugs

EDUCATION
